Directors of the Penitentiary.A. J. STOWE, Esq., of Dare county,

Notary in Hyde county, but was thrown
into Dare when the former county was
divided.

DEAF, DUMB AND BLIND INSTITUTE.—

The Caldwell Board of Directors for
this Institution met on yesterday and
elected A. D. Jenkins, Esq., Treasurer.
On the requisition of the President of
the Board J. N. Bunting, Esq., the State
Treasurer paid the Treasurer of the
Board \$5000.THE RALEIGH & AUGUSTA AIR LINE
R. R.—Information has been received at
Railroad headquarters, in this city, that
the bill granting a charter to the above
named railroad has passed the Georgia
Legislature.CLAWSON'S ART EMPORIUM, on Fay-
etteville street, is one of the handsomest
establishments in the city. Everything
to beauty and adorn a home in the
most improved style can be found here.
Chromos, picture frames, lithographs,
mirrors, cornices, curtains, window
shades, wall paper, damasks, cords,
tassels and a thousand and one other
things are there in profusion.A RALEIGH INVENTION.—We learn
that Master Clement C. Clawson, of this
city, who some time since invented the
most complete ice shaver ever exhibited
on the continent, has made arrangements
for the manufacture, on a large scale,
of this truly valuable invention,
and will be able in a short time to fill
orders. It is so constructed that the
smallest piece of ice can be reduced
to powder in an instant, and is an
indispensable auxiliary to soda fountains,
bars, &c. Master Clawson is a very
promising young man and we wish him
all the best of success.IMPORTANT TO DISTILLERS AND LI-
QUOR DEALERS.—A recent decision of
the Commission of Internal Revenue,
defines the rectifying of liquors to in-
clude the coloring of the same with
burnt sugar or any other compound,
and any distiller or dealer, who shall be
guilty of the same, without procuring
rectifier's license, shall be amenable to
the law, and subject to arrest, fine and
imprisonment.We are trembling with fear, lest they
decide we “can't take sugar in our.”WHAT'S UP!—Hyman and Price,
both colored, and State Senators, from
their respective counties, Warren and
New Hanover, are in the city. Consider-
ing the fact that they are the great
shining radical lights in their respective
sections, and their appearance here just
at this crisis, the beginning of the cam-
paign, we divine their object to be to
draw their quota of the “corruption
fund.” Wonder if they are not too
early by one week, as like Young will
not return from Washington before the
expiration of that time.PERSONAL INTELLIGENCE.—Gen. R.
H. Coke, of Plymouth renown, has ar-
rived in the city and taken rooms at the
National.W. T. Blackwell, the first man that
ever made Durham's smoking tobacco,
was registered at the Yarborough yes-

borough.

STATE CONVENTION.

The State Convention of the Democratic-Conservative Party of North Carolina will meet at Greensboro on Wednesday, the first day of May next.

THE MARCH OF THE EMPIRE.

The advancing columns of the Empire are still marching on. Its legions, with the steady tread of disciplined soldiers, with banners and music, are marshaling for the fray. With firm but noiseless step, the CENTRALIZED DESPOTISM creeps surely on. If not checked, it will soon become so strongly rooted, that it may prove impossible to extirpate it.

A recently peaceful county in South Carolina is now the scene of great excitement. The county of Union, where all was quietude and harmony, has again been made the theatre of lawless acts on the part of the United States Government. The terror which was inspired there a few weeks since by armed soldiers had comparatively subsided. The people were led to believe that they would be allowed a short respite from Radical malignity. Their hopes have proved fallacious. Recent information confirms the report that the warfare has been renewed. Last week a United States Deputy Marshal, armed with the authority of the Government, again invaded Union county, and commenced a series of arrests. The immediate effect of these outrages has been disastrous and alarming. A Charleston paper says in regard to the arrests:

"Business of all kinds was suddenly suspended, and on many plantations work had been abandoned and laborers discharged, owners being unwilling to risk planting a crop, owing to prevailing uncertainty."

Now, this is only one picture in the dark scene. While the direct consequences of these startling crimes against every principle of civil Government are ruinous to the industry and general prosperity of the land, the fact that they do not call forth from every section of the country the indignant denunciations of the public voice, furnishes the most convincing evidence of the decay of public virtue, of the toleration of flagrant usurpations, and of tame and servile submission to the most shameful and atrocious abuses of power.

The march of the Empire is steadily onward. Law is trampled upon. The Constitution is defied. The rights of personal liberty violated. The writ of *habeas corpus*, that life-boat of the citizen in times of turmoil and dissension, is torn up and thrown in the face of the Judge who issues it—and thus the chiefest monument of true Republican Government is dismantled and overthrown. Comes there no protest against these things? Is there no remonstrance—no appeal against Federal encroachment of power—no voice raised in behalf of Constitutional freedom? Is the spirit of the people so callous to legalized crime—so broken down by repeated acts of oppression and tyranny, that it dares not rise up and rebuke the tyrants? Are these enormities permitted to go on, day after day and week after week, and yet the sovereign people of these United States look on with stolid indifference, and shout, amen?

And still the Empire marches on! Is the popular indignation only nursing its wrath, in order to hurl its vengeance against the destroyers of the liberties of the country? Is there not enough of virtue, of patriotism and of courage left in the land to stay the progress of IMPERIALISM, ere its power becomes irresistible? Will not the people, the steady, brave yeomanry of the land rise up in the majesty of their strength and throttle this political anaconda, whose hideous folds are fast encircling the trembling form of the American Constitution? Will not every true patriot in the land, every lover of liberty and foe to monarchy, every friend of civil government and free institutions, unite against the Grant Despotism, and, at the ballot-box, vindicate the principles of Constitutional liberty?

The Grant Empire, like the soul of John Brown, is still marching on! But if the people will do their duty at the polls in November, that Empire, like John Brown's body, will soon lie cold in the ground!

DESERTING THE SINKING SHIP.

Gen. Longstreet has deserted Grant. A feud has sprung up between them, which has resulted in Longstreet's resignation as Surveyor of the Port of New Orleans.

What will become of Longstreet now? After five years experience of Radicalism, he kicks out of the traces, and quits the party in disgust.

What headway can Grant make in Louisiana, with the Radical Governor Wilmot and the great Ex-Confederate Radical Longstreet bitterly opposing him? Verily Grant stock is at a very low ebb in Louisiana. Governor Wilmot openly declares that he will vote for the Liberal Republican nominee of the Cincinnati Convention—that he will not support Grant under any circumstances. "One by the one the roses fall."

Mr. Ira Cox, of Decatur county, Ga., is dead.

THE SPREADING ADDER.

There is a newspaper called the *National Republican*, published in the pleasant little village of Winston, N.C., and edited by one Fred T. Walser, Esq. Mr. Walser is evidently a fine scholar and talented young man. The greater the shame!

We do not know what more appropriate name to give the *Republican* than that of *Spreading Adder*. This is one of the species of the snake genus that in the Fall of the year will become totally blind with poison and at the approach of any object will strike about wildly and recklessly in every direction. So with the *National Republican*. Its Editor is completely blind with *Radical venom*. He strikes right and left, backwards and forwards. He strikes with the same ferocity and recklessness as his serpentine namesake. He *kisses* his scornful denunciations in the very teeth of the *Ku Klux Democracy*. He *raigns* that party for all manner of crimes, corruption, stealing, lying, abounding—in fact everything that is low, vile, dishonorable, and atrocious! He launches forth into whole tirades of vilification and abuse. But like his prototype, his *licks* don't tell. He misses the target badly. He strikes about incoherently, madly—yet harmlessly. Although his head is swollen with poison, his fangs are extracted, and he can do hurt.

There is another peculiarity about the *Spreading Adder*, and that is, as soon as he gets enraged, he suddenly swells and puffs up, and becomes much inflated. So with the editor of the *Republican*. He frets, fumes, foams and puffs up. He rants, rages, flames and quivers with very wrath. In a word, he *spreads himself* against his political foes. He becomes truly a Spreading Adder of Radicalism, and from his venomous tongue issues the hot, hissing breath of vengeance against the Conservative-Democratic party. But we tell the Spreading Adder of Winston: "Cease viper, you bite a file!"

Seriously, it is a source of deep mortification to us to see one of Mr. Walser's attainments prostituting his talents in an unworthy and unholy cause. It is a sad, melancholy sight to see a native son of the State—a young man of promise and brilliant prospects—go down, down, in the dark pit of Radicalism! This young man seems to be terribly in earnest. What a strange infatuation must have seized him?

WE ACCEPT THE CHALLENGE.

The Winston *Republican*, alias *Spreading Adder*, dares us to point to a single instance where the Radical party has ever attempted to screen its guilty members.

In an editorial a few days since we stated it to be the case that the Radicals would often refuse to punish the dishonest and corrupt in their own ranks, and after they were exposed, would then endorse and promote them. The *Republican* denies our charges, and in a very bitter article, dares us to bring forward a single case to sustain our position.

The characters of the Radical leaders who have controlled the party since 1868 are too well known to require any proof of their rascality and shamelessness. We refer the *Republicans* to the language of its own organ, the *Era*, to prove the charge we made of the dishonesty of its leaders. The *Era* speaking of its own party, says:

"The party has been too long weighed down by a set of men of tainted reputations and known criminal acts, who are generally believed to have attached themselves to it for purposes of plunder."

Now, having proved out of their own mouths that the party is "weighed down" by men of "known criminal acts," we proceed to name the case of Littlefield, when brought to the bar, before the House of Representatives of the Radical Legislature. A majority of the members threw every obstacle in the way of his examination. Many of them had accepted bribes at his hands, and were quivering like aspen leaves, while the King of the Carpet-baggers was, by the aid of his Radical friends, dodging and evading the questions touching his stupendous swindling transactions.

To show that his party endorsed the thieves after they have been exposed, we gave an instance the other day, where a Republican Convention in South Carolina passed resolutions endorsing and complimenting the notorious thief and swindler, Gov. Scott, of South Carolina. Does the *Republican* ask for more instances? It challenged us to name one. We have others.

MISSOURI LIBERALISM.

We publish elsewhere the Platform of the Liberal Republicans of Missouri, which is advocated by Senator Carl Schurz and B. Gratz Brown. This Platform, as far as it goes, meets with a general endorsement of the Democratic leaders, both North and South.

We have read an article from the Atlanta *Sun*, Hon. A. H. Stephens' paper, which warmly approves of some sentiments recently delivered by Governor Gratz Brown. Mr. Stephens is evidently not so much of a Bourbon as he is represented by some.

The Southern Home, Gen. D. H. Hill's paper, in publishing the Missouri Platform, speak of it in terms of approval. We will publish Mr. Stevens' and Gen. Hill's remarks to-morrow.

Six brick stores, besides tenement houses, are being built in Thomasville, Ga.

TREASURER.

The Tarboro Southerner notices that the name of Jno. Norfleet, Esq., of Edgecombe, has been suggested as the Radical candidate for Treasurer of the State, and although bitterly opposed to Mr. Norfleet in politics the Southerner admits his financial abilities and business qualifications.

We suggest to our friends of the Raleigh *News* that they touch up their mailing clerk. We like to read the *News* but dislike to get half a dozen little issues at one time—as is often the case.—*Tarboro Southerner*.

We would inform the Southerner that our mailing clerk is now quite ill with Pneumonia, and has been for several days; consequently there has no doubt been much irregularity in mailing our paper. We therefore take occasion to apologize to all of our subscribers who have not been receiving the *News* regularly. We will take it as a favor if our friends will always advise us when the paper fails to reach them.

WHO IS THE COMING MAN?

In addition to the distinguished gentlemen of our city whose names have been brought forward by their friends in connection with the Greensboro' Gubernatorial Convention, we notice the following names have been suggested for Governor through the Democratic press: H. W. Gilson, R. H. Cowan, A. M. Scales, Robert Strange, W. M. Shipp, J. M. Leach, Edward Conigland, Jesse H. Powell, R. H. Smith, E. J. Warren, T. L. Clingman and T. J. Jarvis.

A HITCH IN THE TRIAL.

It will be seen from our telegraphic dispatches, received yesterday at noon, that one of the jurors on the trial of Mayor Hall in New York, is dead, and others are sick. This will necessitate a re-hearing of the whole case.

This is a very important trial, and is exciting a deep interest, not only in New York city, but throughout the whole country. The Mayor is charged with malfeasance in office, and with being guilty of gross neglect in allowing the Tammany Ring to carry on their system of fraud and rascality with the knowledge and under the protection of the municipal authorities. For the past two weeks, the trial has been going on. A large amount of testimony has been introduced, but of course all the witnesses will have to be re-examined, and everything commenced *de novo*.

The able legal talent in the city is engaged for the prosecution and defence, and the court room is daily thronged with eager and excited listeners.

LIBERAL REPUBLICAN MOVEMENT.

The following resolutions have been adopted by the Liberal Republicans of Missouri, and embody the principles advocated by Schurz and B. Gratz Brown:

Resolved, That a true and lasting peace can come only from such profound reconciliation as enfranchisement has wrought in this State, nor can those governments be pure or just in which the taxpayers have no active part. We therefore demand, with equal suffrage for all, complete amnesty for all, that the intelligence and experience of every State may be welcomed to active service for the common welfare.

Resolved, That no form of taxation is just or wise which puts needless burdens upon the people. We demand a genuine reform of the tariff, so that those duties shall be removed, which, in addition to the revenue yielded to the Treasury, involve increase in the price of domestic products and a consequent tax for the benefit of favored interests.

Resolved, That the shameless abuse of Government patronage for control of conventions and elections, whether in the interests of an individual, a faction, or a party, with the consequent corruption and demoralization of political life, demands a thorough and genuine reform of public service. Those who would suppress investigation forget that they owe a higher duty to the country than to any party.

Resolved, That local self-government with imperial suffrage, will guard the rights of all citizens more securely than any centralized authority. It is time to stop the growing encroachments of executive power, the use of coercion or bribery to ratify a treaty, the packing of a Supreme Court to relieve rich corporations, the seating of members of Congress not elected by the people, the bristling of bayonets about State Conventions, the resort to unconstitutional laws to cure Ku-Klux disorders, irreligion or intemperance, and the surrender of individual freedom to those who ask that the pleasure, practice or creed of some shall be the law of all. We demand for the individual the largest liberty consistent with public order, for the State self-government, and for the nation a return to the methods of peace and the constitutional limitations of power.

Resolved, That true Republicanism makes it not the less our duty to expose corruption, denounce usurpation of power, and to work for reforms necessary to the public welfare. The times demand an uprising of honest citizens to sweep from power the men who prostitute the name of an honored party to selfish interests. We, therefore, invite all Republicans who desire the reforms herein set forth to meet in National Mass Convention at the City of Cincinnati, on the first Wednesday in May next, at twelve M., there to take such action as their convictions of duty and the public exigencies may require.

Jordan Stone,

Whereas, the constitution guarantees to the citizens of this State the right to assemble together to consult for their common good; declares that certain unalienable rights are possessed by each and every citizen, among which are life, liberty, the enjoyment of the fruits of their own labor, and the pursuit of happiness;

And believing that these declarations were made and adopted in good faith;

And declaring our unqualified endorsements of those, and the other principles of freedom and justice guaranteed both by our State and federal constitutions to each and every citizen; We, the people of Franklin, in convention assembled, do Resolved, That to the Democratic Conservative party of North Carolina we are to look for the maintenance, and perpetuation of those rights, and principles of justice as guaranteed by our constitution.

Resolved, That only to the Democratic Conservative party of North Carolina are the people to look for a return to that fair, honest and impartial administration of governmental affairs, which only can secure our people in the enjoyment of liberty and the pursuit of happiness.

The announcement that Governor Warnock, of Louisiana will not support President Grant if he is renominated occasions a stir in political circles, and is regarded as the entering wedge for further disaffections among Southern Republicans. The Southern States have recently been looked upon with no little anxiety by prominent Radicals, who until lately have been hopeful of carrying the majority of them with little or no trouble. Now they will have a very difficult task to accomplish, and not carry in all probability any State excepting South Carolina—perhaps Texas—unless the klux law, which was concocted in party interests, is extended until the next Congress. It expires with this term. The extension of the statute would be so palpable in its intentions that while it might help the Radical party in certain parts of the South, it would have a different effect North and West. The fact is, the bugbear of klux has lost its terror and credit in the North. The efforts to charge its existence upon the respectable communities, upon the political parties, and leading men in the States where such outlawry exists, have been a failure, despite the assertions of carpet-bagging representatives, and there will be obstacles in renewing that hue and cry which will not be overcome.

The opinion of the "lookers-out" upon the political sky hereabouts is that the South will play a more important part in the next campaign than has been the case since the termination of the war, and that section may change the force of the political proverb of "As goes Pennsylvania so goes the Union," should (as cannot be considered by any means certain) that State vote for Grant. There has been one way of manipulating the southern sections heretofore, and it has been by means of the bayonet. This will not be attempted again, for the reason, as intimated above, that the effect would be disastrous in other sections. The carpet bag element will be held responsible for Radical success in the South, the penalty of failure being their loss of power and influence with the Administration.

Resolved, That we endorse the amendments proposed by our late Legislature to the Constitution of the State as eminently wise, just and timely, and hope that the voice of the people of the State, regardless of party, may be loud in their ratification.

Resolved, That we command the fidelity with which the majority in our late Legislature performed the high duties devolved upon them, in their efforts at retrenchment and reform in public expenditures, and in the punishment of many of those who flagrantly violated the trusts confided to them by the people.

Resolved, That the participation in active politics by those holding the position of Judges in our State is inconsistent with our established ideas of judicial decorum, and should not be looked upon in silence; but an exercise of the judicial powers in the interest of political parties, is a violent digression from the path of judicial rectitude, and that section may change the force of the political proverb of "As goes Pennsylvania so goes the Union," should (as cannot be considered by any means certain) that State vote for Grant. FRIDAY.....MARCH 15, 1872.

THEY TELL ME THOU ART FALSE.

They tell me thou art faithless,
That thou'st false to every vow;
For another's coming now;
That the gentle heart you gave me
In the sunny days of yore,
Throbs no longer in the breast—
And when they say no more,
oh, how fondly I've been dreaming,
All these lonely hours of you,
of the time when homeward turning
I would find thee pure and true.

Oh, how vivid comes the memory
Of the spot beneath the hill,
Where so oft we've stood together.
In a anguish hour like this,
How painful is remembrance
An anguish hour like this,
And I start as fancy presses,
To be bright, unheeding.
Joys and splendor are thine own,
Whilst a wretched heart so sadly groaneth
In the deepest shadow and the pathway
And thy glorious dreams have fled,
Thee thou'rt false to me while living,
Thou'lt weep when I am dead.

The Virgin Queen.

The sweet singer of Israel turned his harp in melodious strains to his ideal of love, beauty and perfection, but that ideal possessed no life, and produced no practical results. The historian has dwelt in measured words and beautifully worded sentences on the virgin character of Elizabeth, yet Elizabeth was the incarnation of jealousy and revenge. Admirers of the heroic art of war apotheosized the deeds of conquering monarchs. Thousands of people every year visit Rome as the ancient mistress of the world, sitting upon her seven hills, but now decayed and changed. The world of fashion bowed before the shrine of Paris, alas, now humbled and in anarchy, and her citizens subjected. But who is capable of writing the Iliad of the purest Queen that ever reigned, and whose sceptre waves over a world? We shall not essay that task. It is worthy of a Homer, a Virgil, or a Byron.

Freemasonry sits to-day, and has for centuries sat the Virgin Queen, enthroned in millions of human hearts. Upon her brow rests no bloody crown. In her hand is no sceptre which signifies tyranny or oppression. In her diadem is not a single jewel captured from a conquered sovereign. On her robes rests no spot of guilty blood, but all are covered with the pure white roses of forgiveness. The ghosts of no martyred opponents can stalk within her courts and charge her truthfully with being the power that crushed out their once happy lives. No one oppressed by bigotry or intolerance can come before her any say, "thou art my inquisitor." No nation or government can say, "thou hast interfered with my prerogatives." No church or sect can come before her throne and say, "thou hast transgressed upon the consciences of our people."

In testimony of all this the whole world rises and says "thou reignest in our hearts" as the beneficent almoner and dispenser of all that is pure in morality and truth, and of all that is just and good." The only evidences of soiling upon her garments are produced by the grateful tears of helpless widows and orphans who crowd around her throne to shower upon her their heartfelt thanks for deeds of goodness and mercy toward them who loved so well living, and whom they mourn in death.

Around her temple are erected no monuments built of captured cannon—within it we find no museums of captured trophies, save those of thanksgiving and love. Upon her throne, Freemasonry sits to-day, the pure and spotless monarch of a world of hearts.

Nations may cement their sovereignty by iron bands of human oppressions and power, legalized by the international code which is interpreted "might and right." Sects may baptize their altars with the blood of martyrs under the plea that whatever they do "is for the glory of God," but Freemasonry, sitting enthroned as the vice-regent of the God of Love and Charity, calls down the baptism only of our Heavenly Father, who recognizes the universal childhood of all His people, who may meet around a common altar wherein are pledged the solemn covenants of Brotherly Love, Relief and Truth.

The Legend.

The legend, as it is called, for the Master Mason, is one of the most touching and beautiful in the great drama of life. Founded, as it is upon the mysteries and ceremonies of the ancient Egyptians, it has come down to us as the embodiment and substance of Masonry. It is an impressive exemplification of the birth, the duties, the death and resurrection of man. It stamps upon the intelligent Mason the sublime doctrine of the immortality of the soul; and it was a wise provision of all Grand Lodges that that degree should never be mutilated, that it should never be mutilated, that it should never be given in part only, but should be completed at every undertaking. To omit this legend is to omit the degree itself. The legend is the grand landmark, the unfailing beacon of Masonic centuries. It is never changed; it will admit of no removal, for it is a rallying point of the universal brotherhood. It conveys up thoughts of thought, and furnishes food for the reflective mind, down to the grave, and as a simple drama, stands unequalled beside any of the productions of genius. No Mason ever participated in and forgot it; he felt its moral upon his soul as though it were the touch of divinity, and, when properly understood, it inspires a solemnity second only to the scene of death. Let no inventive and tinkering genius, therefore, ever tamper with the beautiful legend; it wants nothing added to it, and will allow nothing taken from it.

WHERE TO GET—IN TRUTH,
THE BEST PIANO FORTÉ
MADE IN THE COUNTRY.

Assessments to the contrary notwithstanding, the author of this article can assert that he has outlaid his instruments good alike in tone, and tell the truth. Pianos are almost entirely the work of the manufacturer, and it is difficult to make them exactly alike in finish, even to saying nothing of tone, which in part is due to chance. He has found places to vary greatly in the factories of every one of the leading makers of this country.

The ability to recognize and to define the quality of a piano is a skill which can be acquired by patient study, with every day opportunity for making comparisons.

The Best Policy.

Is to rely upon a tried, experienced, competent person to select for you, who—*if a dealer*—is responsible, values his reputation, that of his instruments, and can give the lowest possible prices consistent with a reasonable profit.

We are indebted to the Press of Virginia and surrounding states for many complimentary notices from which we make the following extracts:

"The man in the right place." "Petercock's any representation he may make will be found strictly true." "Roanoke News." "We have known him for years—he promises more than he performs." "Roanoke Valley."

"He keeps posted, and what he says can be relied on—his responsibility having been proved by his success." "Petercock's."

"Nash we know—he is a critical judge of goods, exacting with manufacturers, conscientious and to be relied on." "Warren Gazette."

The Late Gale.

The Baltimore Sun of Monday says Captain Gambrell, of the brig Harriet at that port from Porto Rico, reports having been 27 days north of Cape Hatteras, with continuous northwest gales. In the 4th instant he passed, 70 miles S. E. of Cape Henry, a full rigged waterlogged, with part of her embonnet standing; on the 8th, about 20 miles outside Cape Henry, passed a wreck, but could not make out her name or rig. The schooner Wild Pigeon, Captain Endicott, at this port, from New York, reports that on the 3rd instant, 70 miles E. S. E. of Cape Henry fell in with schooner Wallace M. French, Captain Conover from New York for Chincoteague, for oysters, with both masts, spars, sails, rigging, &c., gone in the gale of the 2d instant, Capt. Endicott took the Wallace M. French to town and brought her into port.

A correspondent at the port of Chincoteague, Va., in a letter to the Sun, dated 5th instant, says: "This portion of the Atlantic coast was visited on Saturday last with a horrible storm of wind and sea, from which I have to report the following marine disaster: Schooner C. P. H. Hoffman, of Great Egg Harbor, N. J., ashore on Synepeut beach; vessel and cargo of oysters in all probability a total loss. Schooner Henry J. May, of some port; ashore on Assateague beach about one mile above the light station; has since bilged in ballast; is at yet uninjured and will get off. Schooner Schooner James Butler, of this port, ashore on same beach, both oyster loaded, will get off, with loss of anchors. Schooner James Butler, of Staten Island, N. Y., ashore in Chincoteague channel; is leaking badly; lost both anchors. Sloop S. P. Portham, Amboy, N. Y., ashore on Chincoteague channel; lost both anchors, otherwise injured." —Norfolk Virginian.

The mere lapse of years is not life. To eat and drink and sleep; to be exposed to darkness and light; to pace round in the mill of habit, and turn the wheel of wealth; to make reason our book-keeper, and turn thought into an implement of trade—this is not life. In all this but a poor fraction of consciousness of humanity is awakened, and the sanctities still slumber which make it most worth while to be. Knowledge, truth, love, beauty, goodness, faith, alone can give vitality to the mechanism of existence; the laugh of mirth that vibrates through the heart, the tears that dry wastes within, the music that brings childhood back, the prayer that calls the future near, the doubt which makes us meditate, the death which starts us with mystery, the hardship that forces us to struggle, the anxiety that ends in trust—are the true nourishment of our natural being.

"Now, young people," said a professor of natural history to his class, "now then as to men; a hen has the capacity of laying just six hundred eggs and no more; and she finishes the job in just five years. Now what is to be done with her after that?" "Cut her head off and sell her for a spring chicken!" exclaimed an urchin whose father dealt in poultry.

A California editor extemporaneously expels the following paragraph from his system: "A patriotic gentleman in Angelos has lessened the Government expenditures ninety six dollars per annum, by marrying a soldier's widow and thus stopping her pension. Let every unmarried patriot in the land imitate his glorious example, and rush to arms.
